REPORT OF THE COMMITTEE ON STREET NOMENCLATURE OF THE CITY COUNCIL OF THE CITY OF CHICAGO ON A GENERAL SYSTEM OF STREET NOMENCLATURE

I. REPORT OF COMMITTEE TO CITY COUNCIL.

(Deferred and ordered published March 4, 1912; see page 3016, Journal of the Proceedings of the City Council. Concurred in April 22, 1912; see page 3509 of the Journal.)

CHICAGO, MARCH 4, 1912.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your Committee on STREET NOMENCLATURE, who have had under consideration the question of a general system of street nomenclature, beg leave to submit herewith:

(1st) A list of all duplicate street names in the city. Your Committee recommends that all duplications of street names be eliminated.

(2nd) Your Committee submits, also, a list of all continuous streets, which have more than one name for different parts of such streets; also, of all disconnected parts of streets which really constitute one complete thoroughfare. Your Committee recommends the giving of but one name to each street, whether continuous or composed of disconnected parts.

(3rd) Your Committee recommends, further, that the numbered avenues and courts, running north and south, in the West division, be given names, (other than numbers).

(4th) Your Committee, further, suggests a general plan of street nomenclature for future guidance in changes of names of streets; this plan contemplating the following:

(a) All streets running east and west to be numbered; those occurring between Madison Street and the northern limits of the city to be known as numbered Avenues, and Terraces; those occurring between Madison Street and the southern limits of the city to be known as numbered Streets and Places.

(b) All streets and avenues running north and south, which require new names, to be given names in alphabetical order: All such streets occurring in the first mile west of the Indiana State line to have names beginning with the letter "A"; all those in the second mile to bear names beginning with the letter "B"; and so on to the western limits of the city. In this connection your Committee submits a list of three thousand names alphabetically arranged, not now in use in the city for street names and therefore available wherever required under the proposed plan.

(c) All main diagonal streets to be called "Roads."

Your Committee recommends that the plan and lists herewith submitted be printed in pamphlet form.

Respectfully submitted,

(Signed) JACOB A. HEY,
Chairman.

II. LETTER OF JOHN D. RILEY, SUPERINTENDENT OF MAPS.

CHICAGO, FEBRUARY 28, 1912.

Hon. Jacob A. Hey,
Chairman, Committee on Street Nomenclature.

Dear Sir:—

In compliance with request of your Committee, I submit herewith report and plan for a new system of Street Nomenclature.

Of the 1,875 names now in use in the city, 644 are duplicated. These duplications run from 2 to 11 of the same name, the worst offender being the eleven variations of Park as follows: Park St. (West Division); Park St. (Morgan Park); Park Ave. (East Division); Park Ave. (Austin); Park Ct. (South Division); Park Crescent (Morgan Park); Park Place (Hyde Park); Park Ridge Blvd. (Edison Park); Park Row (South Division); North Park Ave. (North Division), and South Park Ave. (South Division).

In addition to these duplications there are 944 streets lying on the same line either continuous or disconnected, and having different names, an illustration of this being Adams St. (Morgan Park); Fourth St. (Morgan Park); Newgard Ave. (Rogers Park); Janssen Ave. (Lake View); High St. (Lake View and North Division); Cleaver St. (West Division); Rose St. (West Division); Bickerdike St. (West Division); Bixby Ct. (West Division); Bishop Ct. (West Division); Winthrop Ct. (West Division), and Albert St. (West Division), all on the line of Bishop St.

When it is considered that practically all of the duplicated names are also duplicated as to house numbers, the resulting confusion can readily be imagined. It results in delay and misdelivery of mail, express matter and merchandise, and very frequently causes strangers and residents alike to make long trips to remote parts of the city when their real objective point lies in a totally different direction.

The urgent request of the postal authorities for the elimination of these duplicate names, coupled with the fact that the budget for 1912 in order to fill a long felt want carries a fifty thousand dollar appropriation for street signs, and the further fact that these signs can neither logically nor sensibly be placed until the street names are definitely established, calls for action at the earliest possible date.

The plan herewith presented is worked out so as to show the possibility of its application to the entire city should such be deemed advisable either at the present time or at any time in the future. It is predicated on the principle heretofore expressed by your Committee that changes in street names should not be made at random, without any system, and many times merely to suit the whim of some individual or class, but that a definite and permanent plan be first adopted and that thereafter no changes be made excepting such as would be in conformity therewith.

The plan is based on State Street, Madison Street, and the eastern limits of the city, such limits being incidentally the dividing line between the states of Illinois and Indiana; State Street and Madison Street being the base lines of the new house numbering system which recently went into effect. It contemplates:

First: the elimination of the numbered avenues on the west side.

Second: the elimination of all named streets which run east and west—those occurring between Madison Street and the northern limits of the city, to be known as numbered avenues in conformity with the numbers as established under the new house numbering system. The intermediate east and west streets occurring between the regular hundreds to be known as numbered terraces. The east and west streets occurring between Madison Street and the southern limits of the city to be known as numbered Streets and Places.

Third: the assigning of one name to two or more streets either continuous or interrupted but lying on the same line and now known by different names.

Fourth: the elimination of all duplicate names then remaining. The preference being given to down-town streets and to those in the older parts of the city.

Fifth: the assignment of new names for the eliminated numbered avenues on the west side and wherever else required under this plan for any other streets running north and south, such assignment to be made on the alphabetical plan. All such north and south streets occurring between the eastern limits of the city and Superior Avenue (the first mile) to be given names commencing with the letter "A". All those between Superior Avenue and Yates Avenue (the second mile) to commence with "B". Yates Avenue to Stony Island Avenue (third mile) "C", and so on to the western limits of the city.

Sixth: the changing from the termination Avenue to Road for all the main diagonal streets, such as Lincoln, Clybourn, Elston, Milwaukee, etc.

The details of the plan as to the particular streets affected are contained in the tabulation marked "PLAN NO. 1". These details only include the assignment of names so far as the alphabetical system is concerned to the eliminated numbered avenues on the west side, to such north and south streets as lose their names in the process of elimination of duplicates, and to those in the same line class; they do, however, include all of the east and west streets in the city on the basis of the general plan. This tabulation gives, first: the east and west streets commencing at the northern limits and giving them as they occur in order to the southern limits, and then the north and south streets also as they occur in order from the western to the eastern city limits. All of the streets being given from the western limits to 40th Avenue, but only those on line with different names from 40th Avenue to eastern limits.

In many cases I have given the new name, which in my judgment should apply, and in others it is left to the judgment of your Committee.

I also submit herewith a separate and complete list of duplicate street names. A list of streets on line either continuous or interrupted but under different names, and finally a list of three thousand names alphabetically arranged not now in use in the city, and therefore available wherever required under the proposed plan. For this last mentioned list we are indebted to Mr. Wm. A. Amberg.

On the assumption that your Committee may decide to recommend the passage of an ordinance based on this plan or on some part of it, I beg to make the following recommendations:

That the streets running east and west and occurring between North Avenue and Twelfth Street be not changed at the present time, excepting such changes as will be necessary in the process of elimination of duplicates and the changes involved in the assigning of one name to two or more streets on the same line. If it should be decided not to change the names of the east and west streets south of North Avenue to numbered avenues and terraces, the prefix "W" for numbered avenues and terraces north of North Avenue can be eliminated.

That the streets throughout the city running north and south be not changed at the present time to the alphabetical system, excepting the numbered avenues and courts from Fortieth Avenue west and excepting those affected by the elimination process and those in the same line class.

That in the event of the elimination of the numbered avenues and courts on the west side, the new numbered avenues and terraces on the north side be only put into effect from North Avenue (16th Ave.) to Dakin Street and Larchmont Avenue (39th Terrace) at the present time.

That the numbered avenues and terraces from Irving Park Blvd. (40th Ave.) to Howard Street (76th Ave.) the northern limits be put into effect one year later. This to avoid confusion as between the old west side eliminated avenues from Fortieth Avenue up, and the new north side numbered avenues of the same name.

If it becomes apparent for any reason that this or any other systematic plan can not now be adopted, I recommend as the next best step the immediate elimination of all duplicate names.

Respectfully submitted,

(Signed) JNO. D. RILEY,

Superintendent of Maps.

III. PLAN No. 1.

A. EAST-AND-WEST STREETS.
